Describe your personality and character:	I'm very friendly and outgoing! Often carefree and easy going in my everyday life, but extremely ambitious and determined when I have something I'm working toward. I tend to be somewhat meticulous when planning things. I like to take charge and get things done and I rarely hold back.
How would you describe your childhood?	It was wonderful! I grew up with my mom, dad and sister. My dad was always very motivating when it came to school and our education. My mom was always cleaning and keeping everything super neat and tidy. My parents split up when I was 10 and there were definitely some hard times, but everything that happened provided great learning experiences and opportunities that I will always be grateful for.
What's your favorite childhood memory?	My favorite childhood memory is any of the big birthday parties or holidays that my entire family would come together for to celebrate. My favorite times as a child were when I got to spend time with my huge loving family all at the same time. The house would be full of loud jokes and laughter everywhere.
Who has been the most influential person in your life, and why?	The most influential person in life has probably been my aunt. She has faced so much adversity throughout her life, but has always stayed so strong and never let anything stop her from achieving her dreams. She graduated from law school and is now a successful lawyer, quite the inspiration.
What awards/accomplishments are you and your family most proud of?	I'm probably most proud of my academic accomplishments. It took a lot of time and dedication, which I didn't have a lot of to spare due to other consuming aspects in my life, but I never quit or hesitated for a second. I think that's something to be proud of.

What are your future goals?	My future plans are somewhat vague since they largely depend on the outcome of events coming up soon here. If everything turns out the way I'm expecting them to, I'll become a clinical therapist and be working with children as my target clients.

If you could be animal, what would you be and why?	An eagle, so I could fly long distances and see everything from up above.
+	
Why do you want to become a donor?	I know a couple that has been going through this a similar process in trying to achieve their dream of having a child. They are some of the most wonderful and deserving people that I know, and to think that there's a way I could personally help another couple to achieve the same dream is amazing.
Do you have a message you would like to share with the recipients?	I simply wish you the best of luck on this incredible journey! I've seen how hard it can be and I would be absolutely thrilled to be able to provide any of the qualities you are looking for!
