Describe your personality and character:..	I have a very diverse personality. I am hugely musical in that I have been playing piano since I was six and continue to do so. I have played in many competitions and would practice 3-5 hours/day for High school and college. I am also very adventurous. I lived in Peru for six months by myself doing an internship in order to better my Spanish. That has

	<p>been one of my favorite life experiences. I also completed an internship in DC for the ACLU for three months, also a great experience. In addition I am very active, I ran cross country/track since the 7th grade and continue to participate in half marathons and triathlons, my Personal Record for the 1/2 marathon is 1:35:00, a record I am continually working towards beating. I enjoy being around my friends and family and love being social..</p>
<p>How would you describe your childhood?..</p>	<p>It wasn't the easiest childhood, but if it were not for my childhood I would not have turned out to be who I am today. My childhood has taught me to really cherish my family and stay close to my siblings..</p>
<p>What's your favorite childhood memory?..</p>	<p>My favorite childhood memories are usually the ones spent outdoors with the family, I loved when we would go camping together, mountain biking with my dad and trail running with my sister. I loved road trips with my family, even though I would pretend I didn't want to be stuck in a car for so long, I secretly loved it because of the time it gave me with my family..</p>
<p>Who has been the most influential person in your life, and why?..</p>	<p>My mother has been the most influential person to me. She always thinks of others, especially her children and reminds us that she is always there for us. She is a beautiful person inside and out and I hope I can grow up to be like her..</p>
<p>What awards/accomplishments are you and your family most proud of?..</p>	<p>My biggest accomplishment is touring Italy and Eastern Europe playing the piano in concert halls when I graduated High school. That is an experience that I will not soon be forgetting. The sights were great but the experience of being able to play my music abroad was the most rewarding. Learning Spanish has been a long road, but I finally feel comfortable enough to say I'm fluent. Actually, being bi-lingual is the reason I was hired at my current job as a paralegal for an immigration law firm..</p>

<p>Describe some of your hobbies and interests:..</p>	<p>To put it shortly, I have a huge passion for piano, running, reading, mountain biking, photography and Spanish. All of these things (except for photography) I've done since I was little and have grown to be a part of me..</p>
<p>What sports or activities have you excelled in?..</p>	<p>In the 7th grade I started running cross country/track with the High school kids, so by the time I was in High school I was running varsity at every race until I graduated. I continue to do well in running events, usually placing in the top 3 in my age group and the top 5% overall. In the last 1/2 marathon I ran, I came in 2nd in my age group of about 200 women in the group. I also mountain bike very well. I started doing that when I was in 7th grade with my dad, he continued taking me because I was the only one of the kids who could keep up with him. I like to swim laps, snow board, hike, backpack and rock climb..</p>
<p>Describe any artistic/musical talents you have:..</p>	<p>I started playing piano when I was six and have played since then. In High school I practiced three hours per day and played in piano competitions, piano concertos, and toured Europe playing in concert halls. In college I continued playing and gave a solo recital in April 2012 with pieces featuring Schubert, Beethoven, Ravel, and Chopin. I practiced with renowned teachers who tour internationally. Additionally I do photography including photo shop. It has been a great hobby for me. I recently started making cards for people, which I also love..</p>
<p>What are your future goals?..</p>	<p>I am currently studying for the LSAT to go to law school. I would like to work with immigration law so that I can keep using my Spanish. I also want to go back to South America to live for another year to polish my Spanish and when the time is right, get married and have children..</p>
